ldtpitch@purdue.edu

## Description

Website development tools allow you to create a collection of related web pages, identify them with a common domain name, and publish them on a web server. The published website may be accessible via the Internet or a private local area network. Websites can contain information in the form of written documentation, videos, links to other websites, etc.

## Criteria

You will demonstrate how to: * Design effective instructional websites, * Create and publish an instructional website.

## Evidence
